Our International Service Projects: Spanning the Globe

ADOLESCENT GIRLS' HEALTH AND PROTECTION IN PERU

Funding: US\$750,000 to UNICEF USA

In 2020, national coverage of comprehensive health care for adolescents dropped by 63% compared to 2019. National coverage of adolescents who received mental health care fell by 50%. Goal: Improve the capacity of services to respond to the health needs of adolescents, in particular adolescent girls, in a timely manner and prevent all forms of violence in schools and other services. The project is expected to reach 50,364 adolescents (24,829 girls) in four regions throughout Peru.

HER HEALTH AND DIGNITY, OUR PRIORITY TIMOR LESTE

Funding: US\$750,000 to UNFPA

Gender-based violence has detrimental and long-lasting consequences to the wellbeing, health and safety of women and girls. Goal: All women and girls in Papua New Guinea (PNG) and Timor-Leste (TL) live life free from violence. There will be an estimated 578,000 beneficiaries in PNG and an estimated 74,000 in TL.

Global programme to end child marriage

Funding: US\$1,200,000 to UNFPA and UNICEF via UNICEF USA Globally, 21% of girls are married while they are still children, robbing them of their childhood. Goal: Scale up the Global Programme's activities to protect and empower girls, and ultimately help bring an end to the practice of child marriage. The program's priority is engaging adolescent girls as key agents of change in 12 countries with high prevalence of child marriage.

Engaging Girls on Climate Change in Madagascar

Funding: US\$500,000 to UNICEF USA

41% of the Madagascan population has access to basic water services; 17% to basic sanitation services and 23% to basic hygiene services. 81% of schools lack safe water and 31% lack basic latrines. Goal: Support girls and a generation of children and adolescents by providing environmental education in Madagascar through childfriendly schools. Approximately 119,000 students (including 66,000 girls) will directly benefit, and 1,500 teachers at 700 primary schools will indirectly benefit from school health and environmental action plans.
